

MC1X05R Radial Alarm Horn & Xenon Strobe

The MC1X05R combines a high output, 114dB(A) alarm sounder with a 5 Joule Xenon strobe beacon. Featuring a robust, fire retardant, IP66 & IP67 housing, the MC1X05R is particularly suitable for harsh environments with high ambient noise levels.

The radial horn on the MC1X05R distributes the alarm tones omni-directionally allowing the beacon to be orientated in the optimal position. The MC1X05R provides a choice of 64 alarm tones and 4 remotely selectable stages. The Xenon strobe beacon automatically synchronises with other MC1X05R devices on the same power supply. The sounder & beacon can be operated individually or simultaneously.
