

# D2xC2LD3 Horn & LED Synchronized UL464 & UL1971

The haz loc D2xC2LD3 is an auto-synchronizing alarm horn & LED warning light / beacon tested to UL464 & UL1971 suitable for public mode fire alarm, ADA compliant, hearing impaired applications. UL1971 rating of 79.3cd. NFPA 72 compliant 20ms pulse.

The D2xC2LD3 utilises an array of super high power Cree® LED's, orientated to optimise visibility in any direction. The 20ms pulse creates an intense flash comparative to a Xenon strobe. Multiple D2xC2LD3 units will auto-synchronize when powered from the same power source removing the need for any additional sync modules on the circuit. The horn & LED light can be powered from the same source, simplifying installation and reducing cabling costs. UL1971 effective candela rating of 79.3cd. The unit is UL/cUL approved for Class I Div 2, Class II Div 2, Class I Zone 2/22 as well as IECEx and ATEX certified for Zone 2 and 22 hazardous areas.
